Cobra Speedster Slashdown - VN 1500

Pris kr. 6.249,-

Passer til Kawasaki VN 1500

Sælgers beskrivelse

Fuld udstødningssystem. Flotte chrome udstødninger - klar til montering. Husk, Enderne af udstødningerne "end taps" er lavet i Forchromet aluminium, så disse holder ikke mange år i det danske klima. Dette er ikke omfattet af garantien. Det skal forventes at de skal skiftes, males eller om forchromes med tiden. Ved skift af udstødningssystem anbefaler vi at motorcyklen får justeret sin brændstof blanding hertil.

Cobra tekst: Billet Slashdown tips cap off these Speedster pipes that produce class-leading power gains. Includes our limited Lifetime Warranty. Cobra's Speedster systems combine traditional styling and modern performance technology. These triple-chromed, shotgun-styled pipes feature full-length, 222-degree heat shields, chromed aluminum billet tips and are available in long, short and slashdown versions. They also deliver power gains over stock that are among the highest in the business. In part those gains come from the Cobra PowerPort, our proprietary crossover technology that helps to increase overall power from idle to redline. The end result is the Speedsters deliver the kind of power increase you normally experience with a 2-into-1 system, while retaining the clean classic lines of a 2-into-2 pipe.
