LS2 Scope Arch

Pris kr. 1.499 ,-

Sælgers beskrivelse

LS2 FF902 Scope Helmet Arch Gloss White / Titanium. Modular helmet that offers a perfect combination of protection and comfort. Made of thermoplastic (HPTT), with a built-in sun visor, air inlets and outlets for good ventilation and inner padding prepared for users of prescription eyewear. Main Features: Extra oval shell made of HPTT (High Pressure Thermoplastic Technology), a mixture of injected ABS. 3 shell sizes for a better fit to each size. Channelled, multi-density EPS. Clear Lexan injected visor with anti-scratch treatment and UV protection. Predisposition for pinlock Max Vision (included). Quick Screen Release System. Inner sun visor easily operable from the outside. Ventilation system with front air inlets (on the top and on the chin guard) and rear outputs with grille for good circulation of airflow. The front inlets may be opened and closed. Pre-shaped, laser cut inner padding for superb ergonomics and comfort. With breathable and anti-bacterial fabric and is fully removable and washable. Optimized for the use of prescription eyewear. Reflective element in the area of the nape of the neck for greater visibility for night riding and under poor light. Breath guard and chin curtain as standard. Micrometric closure with reinforced strap.
