An exceptional evolution of the pioneering Norden 901, the Norden 901 Expedition is assembled with all the Technical Accessories necessary to make it the ideal expedition motorcycle. Comfort is significantly boosted by the offroad-specific WP XPLOR suspension that offers longer travel, 240 mm front and rear, and is fully adjustable for a personalised set-up. A heated seat and grips make cold-climate riding comfortable at all times while a Touring Windshield reduces fatigue by deflecting wind around the rider. Designed and built to reach the most remote destinations, this highly reliable and technically enhanced touring machine is characterised by the distinctive colour scheme applied to its ergonomic bodywork. Built for pioneers, your next journey starts with the Norden 901 Expedition.
