#### Udstyr & Sælgers beskrivelse

Sport, 249 ccm, Registreret første gang: 4/2014, Sidste syn: 4/2026, Servicebog udfyldt: Nej, 26 HK, 0-100 km/t på 7.9 sek. Topfart: 147 km/t, Nypris kr. 49.995, ABS bremsler, First registered in 2014, ~15000km milage. Just came back from service. Most wearable consumable parts were changed recently, so the motorcycle is good to go. It's a very reliable Honda motorcycle with ABS, low milage, low fuel consumption, light (165kg wet), easy and fun to ride, taken good care of. Things changed during the last year: - New tires, chain and sprockets, front brake disc and brake pads, changed oil and brake fluid (August 2025, around 1500km ago) - O-rings and dust seals in the front brake caliper replaced, brake fluid replaced (December 2025, 500 km ago) - Steering head bearing and front axle replaced (April 2026, 10 km ago) Serviced in authorized Honda service with original parts. Just inspected without issues 24.04.26. Ready for new owner.
